

Creative Digital Publishing Inc. - License Statement and Limited Warranty

This software is protected by copyright law and international copyright treaty. You must treat this software just like a book, except that you may copy it onto a computer to be used and you may archive copies of the software for the sole purpose of backing up our software and protecting your investment from loss.

By saying “just like a book” Creative Digital Publishing means, for example, that this software may be used by any number of people, and may be freely moved from one computer or location to another, as long as there is no possibility of it being used by more than one person at a time. Just as a book can’t be read by two people in two different places at the same time, neither can the software be available for use by two different people in two different places at the same time without Creative Digital’s permission (unless, of course, Creative Digital’s copyright has been violated).

Adding Users

You may add users by paying for a separate software package for each user you wish to add. You may also add users by purchasing multi-user packs or additional licenses for the software, so long as the number of persons who are able to use the software at one time isn’t more than the number of authorized users specified in our package or license (otherwise, you are not using the software “just like a book”).

Transferring the Software

You may transfer all of your rights to use the software to another person, provided that you transfer to that person all of the software, diskettes, and documentation provided in this package (including this statement), and destroy all copies in any form in your possession. Remember, once you transfer the software you no longer have any right to use it, and the person to whom it is transferred may use it only in accordance with the copyright law, international treaty, and this statement.

If you have purchased an upgrade version of the software, it constitutes a single product with the Creative Digital Publishing software that you upgraded. For example, the upgrade and the software that you upgraded cannot both be available for use by two different people at the same time, and cannot be transferred separately, without written permission from Creative Digital.

Limited Warranty

Creative Digital warrants the physical media and physical documentation provided by Creative Digital to be free of defects in materials and workmanship for a period of ninety (90) days from the original purchase date. If Creative Digital receives notification within the warranty period of defects in materials or workmanship, and determines that such notification is correct, Creative Digital will replace the defective media or documentation.

The entire and exclusive liability and remedy of breach of this limited warranty shall be limited to replacement of defective media or documentation and shall not include or extend to any claim for or right to recover any other damages, including but not limited to, loss of profit, data, or use of the software or special, incidental, or consequential damages, or other similar claims, even if Creative Digital Publishing has been specifically advised of the possibility of such damages. In no event will Creative Digital’s liability for any damages to you or any other person ever exceed the lower of the list price or the actual price paid for the package or the license to use the software, regardless of the form of the claim.
