

VISOR™ Prism

The infinitely expandable
handheld computer with
vivid color.

The Handspring Visor Prism is the first infinitely expandable full-color handheld computer. This pocket-sized wonder **displays over 65,000 vibrant colors** so everything is crisper, brighter and easier to read. And, with the **unique Springboard™ expansion slot**, you can snap in a digital camera or global positioning system and instantly view full-color photos and maps. Best of all, it's plug-and-play so there are no drivers to load. Just snap in a module and it works!

Based on the popular Palm OS®, Visor Prism does everything the Palm™ organizer does...and more. So, in addition to an address book, to do list and memo pad, there are new features like an enhanced date book, advanced calculator and a world clock to make its organizational capabilities even better. And, since it uses the Palm OS, you can beam information with other Palm users

or download thousands of existing Palm-compatible applications, including those with color.

And if all that weren't enough, the **USB connection** makes synchronizing with your desktop computer really fast—and really easy. Which means you can quickly back up, update or exchange information between your Visor Prism handheld and desktop computer with the USB charging cradle and HotSync® technology. And the Visor Prism's internal battery **recharges right in the cradle.**

The Visor Prism comes in one great color on the outside—with 65,536 more displayed on your screen. Plus there are lots of accessories to choose from like custom cases, keyboards and styli.

of the original PalmPilot.

Visor™ Prism Features

Incredibly Organized

- Get instant access to everything you need, everywhere you go.
- Enhanced date book with expanded views including weekly, yearly and a list view.
- Integrated To Do items that appear in the daily calendar view.
- Advanced calculator with advanced math, trigonometry, business, statistical and conversion functions; built-in math library for higher precision.
- World clock with day of the week and time for five cities around the globe.
- Based on the popular Palm OS®—so it does everything the Palm™ organizer does...and more.

Amazingly Colorful

- 16-bit color, active matrix backlit LCD.
- Displays 65,536 vibrant colors so everything is crisper, brighter and easier to read.
- Lets you view picture-quality graphics like photos, videos, games, and maps right on your screen.

Fully Compatible

- Visor handheld is fully compatible with the Palm OS so you can run Palm OS based software programs, including those with color.
- Beam information or programs between your Visor handheld and other Palm organizers.

Well Connected

- USB connection makes synchronizing with your desktop computer a whole lot faster and easier.
- Instantly back up, update and exchange information between your Visor handheld and desktop computer with the USB cradle and HotSync® technology.
- Internal lithium ion battery recharges in the cradle.
- If you have existing data in a Palm organizer, you can transfer it to your Visor Prism with just one touch.
- Windows and Macintosh desktop software are included.

Infinitely Expandable

- Handspring's unique Springboard™ expansion slot means your Visor Prism can become a digital camera, or a global positioning system so you can view full-color pictures, maps and more.
- It's the first true "plug-and-play" expansion—no need to load any drivers, just plug in a module and it works!
- No other handheld lets you switch functionality so easily. Use your wireless modem for business and your digital camera for pleasure.
- Modules can be purchased separately. Check www.handspring.com for availability.
