

# Powerful Presentations from your Pocket

### 4 Easy Steps

- 1** Use your Margi™ software plug-in to transform any PC application into mobile presentation slides.
- 2** Put your Visor™ handheld in its cradle and let HotSync® capture your new mobile presentation.
- 3** Insert the Presenter-to-Go™ Springboard™ module into the Visor handheld, and connect the cable to a projector or VGA display (and the power source).
- 4** Tap on your Visor handheld's Presenter-to-Go icon, and give your presentation. Use the remote control for even more convenience.

## SpringBoard™ Presentation Module

### What's Included

- Presenter-to-Go Springboard Module for all model Handspring handhelds
- CD-ROM with MARGI Software Plug-in for Powerpoint 97/2000 and other PC applications
- 12" VGA Adapter Cable with power port
- 14-button Infrared remote Control
- AC Adapter power supply 100-240V
- Mini-adapter for direct connection to projectors
