

m100  
Handheld

# Simplicity, Function and Fun.

Take control of your life. Designed to help you meet the unique demands of your life, the affordable Palm™ m100 handheld allows you to replace your paper-based organizer with confidence. Keep track of all of your appointments, addresses, and to-dos. Even use it to jot notes as fast as with pen and paper. Express your personality with colorful snap-on faceplates. Take advantage of thousands of third-party applications, and even download information from the Internet for offline browsing. And your information is secure with one-touch data exchange and backup with your PC or Macintosh. Take control with the Palm m100 handheld.

Choose from an extraordinary collection of faceplates

# One-touch Information Access

## Infrared

"Beam" files and applications—even your business card—to other IR-enabled Palm OS® handheld users.

## Date Book

Keep track of your important appointments, notes and deadlines.

## Address Book

Store and instantly retrieve thousands of names, numbers, postal and e-mail addresses.

## Clock

One touch shows you the time through a protective flip cover.

## HotSync® Technology

Backup and exchange information between your handheld and PC with a touch of a button using the convenient HotSync cable provided.

## Find

Locate anything on your handheld instantly. Just enter a name or word in the Find area, and the information appears.

## Note Pad

Got a thought? Jot it down with your handwriting directly on the screen.

## To Do List

If it needs to get done, list it here. Sort your lists by category, priority or due date, then check off items as you complete them.

## Easy ways to enter data

The Palm m100 handheld is so flexible, it lets you decide how you want to input your data.

## Note Pad

Write virtual "sticky notes" directly on the screen for quick reminders.

## Graffiti® Software

Award-winning Graffiti power writing software is simple—use your stylus to input easy-to-learn characters.

## On-Screen Keyboard

Tap with your stylus to bring up the on-screen keyboard. Then simply tap the characters you want to enter.

## PC Keyboard

Input data on your PC keyboard, then just touch the button on the HotSync cradle, and it's transferred instantly to your Palm m100 handheld.

## Infrared Transfer

Accept and transmit information from any other IR-enabled Palm OS® handhelds.
