

# Welcome to DigiPet World!

## Do you wanna have your own pet in your Pilot?

This program is converted from ZAURUS's Addin-software which made by Mr.Masanori Shimozato.

All graphic design and almost algorithm are same with ZAURUS's. But some are changed for Pilot.

Let your pet live long with your love!

### 1.Control

	Meal	Give pet meals, candies or tea
	Toilet	Pet put waste. Flush it when you find it.
	Light	Turn the light on and off.
	Play	Play 'Mole Attack'.
	Scold	Scold pet when it become selfishness.
	Shower	Take shower.
	Clock	Nothing happen on Pilot version.
	Doctor	Crainium appear when pet is sickness, call a doctor.

When your pet is sleeping, you can do nothing but change the light switch turn on&off.

## 2.Status

Name	Whe your pet born, name it.
Age	Age 1 per day.
Weight	Keep weight 10 to 100.
Humor	Satisfaction
Hunger	Display
IQ	Display his intelligence. Hard to increase.
Waste	Wash away immediately.
Crainium	Displayed when pet is sickness.

## 3.Caution

This program is free-ware. I don't take the responsibility of any troubles when using DigiPet. Please use this program with your own risk.

When you wanna forward this program to any other place, you must send me e-mail before do it.

This program runs only on Pilot. If you don't have this PDA, you can't play...  
For more information about Pilot, please see [US Robotics's home page](#).

## 4.Release Note

97.05.12	Added this note. :-p I tried to change a routine which is called when alarmed. I hope that the Fatal error would decrease. (But I'm not certen)
----------	---

## 5.And in the end

Special thaks to Mr.Shimozato who gave me source-code of DigiPet for ZAURUS.

The newest version is available from my home page
